Strategist

Who I am

I help companies create and execute strategies that identify assumptions and reduce risks.

I do this from a 'full-stack' perspective, bringing many skills to the table: website optimization, analytics, SEO, marketing, forecasting, psychology, programming & web development, and of course, strategy and execution.

These diverse skills allow me to see the big picture and navigate complex challenges.

My ideal environment is fast-paced, working with people who are intelligent, passionate, and empowered by leadership. I fit best in small to medium-sized companies that have a passion for delivering value.

<u>m</u> Education

Masters - Business Administration

Eastern Washington University (2013) Graduated with Honors; GPA 3.99 Concentration in Finance

Bachelors of Science - Computer Science

Eastern Washington University (2008) Summa Cum Laude; GPA 3.87

Minor in Physics and Mathematics Recognition of Achievement in C.S.

Experience

• IntelliTect (from September of 2013 to the present) Expert Generalist, Strategist

- Led initiatives to create new services and solutions for niche markets. Developed strategic objectives and created websites, marketing materials, and marketing copy.
- Led 'ideation' initiative and developed processes for (business) idea viability analysis and idea development
- Delivered 'business analysis' & financial forecasting consultations and reports for clients; very positive feedback
- Led various initiatives for process improvement and best practices across organization (sales, company task management)
- Highly involved in legal activities including reviewing/updating contracts, negotiation of contracts with clients
- Led and worked on highly diverse set of projects and tasks.

• GoDirect Foods (spare time, from July of 2014 to November 2015) Advisor, Strategy Consultant

- Identified key business activities and strategic options; helped to plan and provide insight into the execution of ideas and projects
- Provide guidance into scientific method of validating hypotheses
- Set up analytics system in order to make data-based decisions
- Led crowdfunding campaign, raised \$10,000
- Created marketing plan and provided ongoing marketing insights
- Led team to implement collaboration/communication methods

• Itron (from July of 2008 to August 2013)

Software Developer

- Led several projects to a successful completion.
- Received multiple documented acknowledgments for outstanding dedication and achievement.
- Worked onsite at customer locations to successfully troubleshoot, resolve problems, and provide support.
